seca® Precision for health

Customer understands and agrees it must properly disclose the discounts or reductions in price, and reflect such discounts or reductions in price in the costs claimed or charges made, under any federal or state health care program which provides cost or charge-based reimbursement to customer for the items and services covered by this agreement.

seca – 2012 partner product registration

The advantages of buying from a seca partner:

Commitment

The seca partner designation is given to less than five percent of seca North America medical dealers that demonstrate a history of support for seca products,and doing so in a manner reflecting our common commitment.

Calibration

seca's products perform for a lifetime when properly cared and routine calibrations are a part of that care. The initial calibration, due within the first eighteen months of service, is at no charge for select products purchased through seca partners ($150 value).

Extended warranty

Select seca products purchased from a seca partner receive an extended warranty and enhanced service like free loaners, if in the rare chance, repair or replacement is necessary.

In-service and set-up

We know that some of seca's products take time to build before use. A seca product specialist will perform the installation, and provide needed training, for select products purchased from a seca partner.

Savings

seca partners receive the best pricing and terms of any seca Authorized Dealers, and are therefore able to pass that savings on to you.

Complete the registration form in its entirety to be eligible for product rebate and extended warranty. Fax this form to **1 888-705-7397** or send an email to **us@seca.com**
