As an Advantage Club member, you will receive invoices for products purchased, as well as an Advantage Club Savings Statement annually. The Advantage Club Savings Statement will list the items and value of the discounts you have received over the last year. Use the invoices as well as the savings statement, to determine your true net cost/discounts on products purchased.

Please note that health care providers who file cost reports must also disclose all discounts received through membership in the PSS Advantage Club. Federal regulations regarding reimbursement of health care costs require that certain discounts be reported and passed on to Federal and State Health Care programs, such as Medicare and Medicaid. Facility shall be responsible for determining whether the savings it received must be reported or passed on to payors.
